Consider Your Expenses Managed

dash[®]Purchasing cards bring consistency, compliance and control to corporate purchasing. Use dash[®] instead of credit to track and move money in real time; and give employees selective access to company funds—only when and where they need them.

Setup automatic reloads and low funds notifications

Add, remove, or freeze funds in seconds online or in the app

Eliminate reimbursement processes & manual expense reports

Order new or replacement cards in seconds

Track transactions online or in the app

Add transaction details and receipts with ease

Set spending limits for each cardholder

Why spend with dash[®]?

- To protect business accounts from misuse, theft, and fraud
- Because credit cards don't always make sense
- To eliminate the need for petty cash or checks
- To fill the gap between credit and personal reimbursements
