

Schedule of Fees

About our Service Fees

Texas Security Bank makes every effort to provide high value products and services at fair and reasonable rates. By opening your account, you agree to the fees described in this schedule. When using your TSB account(s), you will pay fees for conducting specific transactions and for using specific services. Fees may vary based on the type of account you have, how you use your account, or where a transaction is performed. Your account may be charged fees during a statement period other than the one in which the activities or services that caused the fee to occur. We may change this schedule at any time and additional charges may apply for specialized services not listed. If required by law, we will notify you if changes, additions, or deletions to this schedule occurs. If you have a question about a fee on this schedule, please contact your banker or call our help desk at 469-398-4884.

About Analysis Pricing

Texas Security Bank determines service charges for certain noninterest-bearing checking accounts through Account Analysis. Analysis allows a "credit" or earning credit to be earned based on the balance in your account(s). The earnings credit will be calculated using the earnings credit rate (ECR) in effect during the specific statement period. This credit may partially or fully offset the monthly analysis charge. If the earnings credit exceeds the total analysis charge for the statement period, then there will be no analysis charge. Excess earnings credit does not carry over from one statement period to the next.
